ANIMALS- GAMES

In October students actively took part in extra English classes and prepared some games related to the topic of animals. Children created such games as bingo, memory and kaboom.

1. Memory game

Memory game created by Natalia

2. Bingo

Bingo created by Zuzia, Marta and Ania

3. KABOOM!

Learners got some sticks and they had to write some names of animals (Polish and English ones). The word „KABOOM“ was written on six wooden sticks. All sticks were in the glass.

Rules

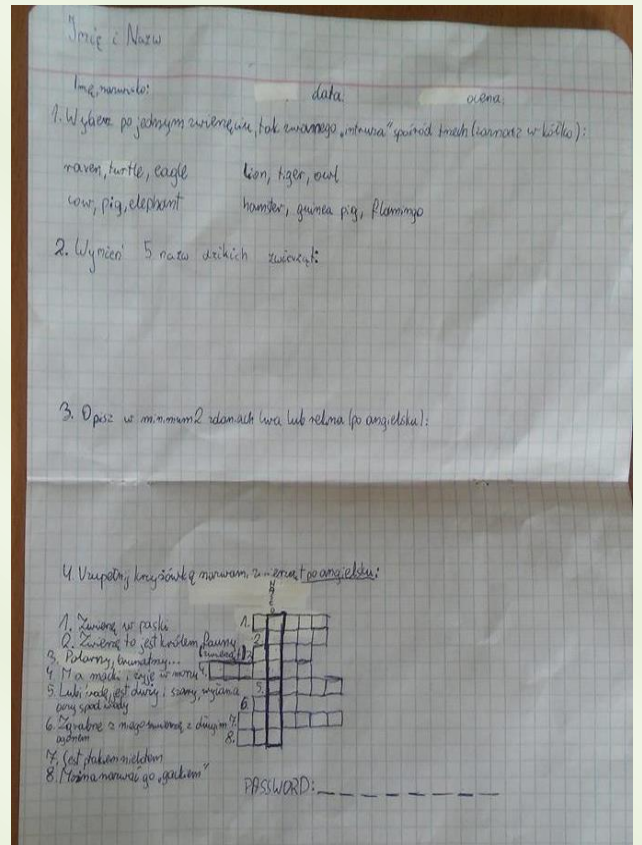

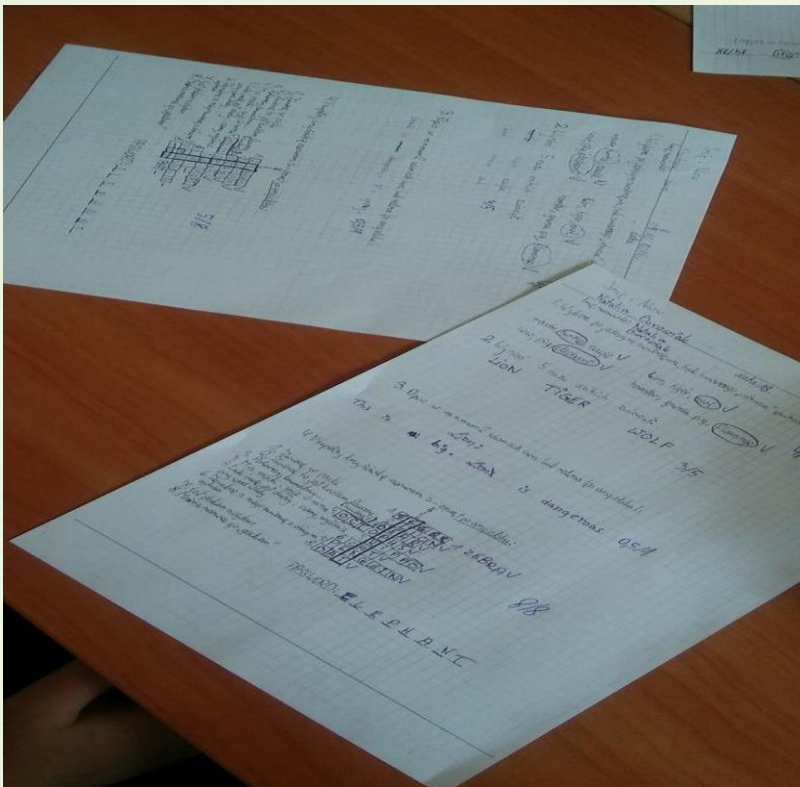

Children choose the spatula and translate the given word into Polish or English. If someone

does it correctly, he/she can take this stick, otherwise it comes back to the glass. When the person chooses the stick with the word „KABOOM“ he or she must give all spatulas back to the glass. The winner is a person who collects the most sticks in specified time given by the teacher.

4. Short test - animals

This time, Zosia had an opportunity to become a teacher for a moment. She was responsible for preparing a short test checking learners' vocabulary knowledge related to the topic of animals. Firstly, students had to choose the word that is different from three or four

words. The second exercise checked learners' knowledge of wild animals, because they had to name 5 of them. Then they were asked to write two or three sentences about sharks or lions. Completing the crossword was the final task during this short test. Zosia checked all tests and she marked them, too.
