# PLACES IN A TOWN - GAMES

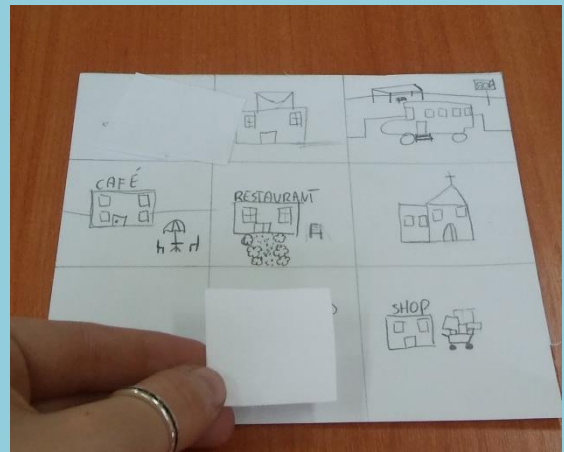

## 1. Memory game

We often play memory game during our English club. Marta, Zuzia and Ania created this game in November. Playing memory games is very beneficial for all students. Firstly, this type of game improves memory and concentration in learners. What is more, it is a good training for students' visual memory. Don't waste your time, create, play and have fun 😊

## 2. Bingo

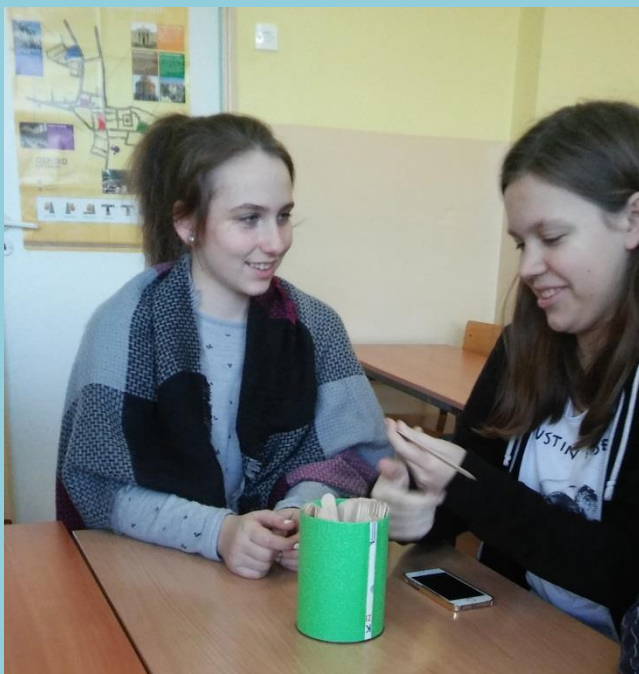

Created by Zosia and Martyna

The rules of this game are very simple. Every student has a bingo card. One person (teacher or other student) call out the name of the word. Students have to identify the picture on their bingo cards and cover the space. If a learner has all pictures covered, he/she should call BINGO.

### 3. Kaboom

In November, children prepared some more spatulas which are used for playing „KABOOM“. This game is very exciting and it is a great source of vocabulary revision for learners.

# OTHER GAMES

## 4. Hot potato

Hot potato is another example of a game which is a great source of entertainment and revision for learners. We modified some rules of this game. Players sit in a circle and the person who starts the game holds the potato which is made of paper. The teacher says the category, for example, animals. The players' task is to name animals and pass the hot potato to other students. They can't repeat the same words and hold the potato for more than 5 seconds, otherwise, this person gets

the hot potato. The loser is the person who gathers the most hot potatoes.

## 5. Dobble
